Website Privacy Policy

In the interests of your safety and to implement the principle of legality, transparency and adaptability, Nexocode observes the Privacy Policy. The document applies to accepting cookies and storing personal data during your visit to the website.

1. Definitions

1.1. "Cookies" - information in the form of text files that are stored on the End Device (computer, tablet, smartphone, etc.) by means of accessing the website or its individual components. Cookies may be placed by the website itself or by a third party, may be persistent or temporary, and their content may be limited to text or include elements such as Flash or Java. Cookies usually contain the name of the website or its subdomain from which they originate, the domain of the website to which the cookie belongs, a unique number and specific time for which a cookie is stored on the End Device and a user who can process data.

1.2. "End Device" - any hardware or software (including the operating system) used to access the Internet, e.g., a desktop computer, laptop, tablet, or smartphone.

1.3. "Visitor" - any person visiting the website or its individual components.

2. Cookies and Data Processing

2.1. Cookies are used to enhance the User's experience when navigating the website, to maintain the session during the use of the website, to optimize the website's functionality to the needs of the User, and to adapt its functionalities to the needs of the User. The legal basis for processing personal data is the User's consent (article 6 para. 1 letter a of the GDPR), or the website operator's legitimate interest in promoting the optimal security and functionality of the website (article 6 para. 1 letter f of the GDPR)

2.2. The website operator processes the following types of cookies:

- "Session" - cookies saved on the End Device until the User logs out, leaves and closes the browser window.
- "Performance" - cookies used specifically for gathering data on how visitors use the website, which can include information such as the number of visits, average time spent on the website, page views, and most frequently visited links.
- "Functionality" - cookies that allow the website to recognize and remember the User's preferences for services in order to provide enhanced site functionality.
- "Analytics" - cookies that collect information about how the website is used, such as the number of visitors, the average time spent on the website, the most frequently visited pages, etc.
- "Marketing" - cookies that are used by third-party advertisers to provide advertisements that are relevant to the User and their interests.
- "Special" - cookies identified as non-identifiable natural persons (" guests"), non-personal data, and non-token data.

2.3. The website uses the following types of cookies:

- "First-party" - cookies from the website operator (Nexocode)
- "Third-party" - cookies from a website other than the website; cookies from the operator of the website using which the website is accessed
- "Essential" - cookies that are essential for the operation of the website.
- "Non-essential" - cookies that are not essential for the operation of the website.
- "Non-identifiable" - cookies that do not identify a User as an individual, but rather aggregate data about groups of Users.
- "Identifiable" - cookies that identify an individual User.

2.4. The website operator uses cookies to help improve the quality of the website's content and services, to adjust the website's content to the User's preferences, to improve security, to operationalize the website, to maintain the session during the use of the website, and to optimize the website's functionality to the needs of the User.

3. Cookies Used on the Website

3.1. Cookies are used to maintain the session during the use of the website, to optimize the website's functionality to the needs of the User, and to adapt its functionalities to the needs of the User. The legal basis for processing personal data is the User's consent (article 6 para. 1 letter a of the GDPR), or the website operator's legitimate interest in promoting the optimal security and functionality of the website (article 6 para. 1 letter f of the GDPR).

4. Cookie Mechanism on the Website

4.1. The website operator processes personal data using the tracking system associated with the website. Tracking involves the use of cookies to monitor the website's visitors' activities, thereby enabling the website operator to understand the patterns of user behavior and improve the website's functionality and performance.

5. Additional Information

5.1. The website operator processes personal data in a manner that is consistent with the provisions of applicable legal regulations. The website operator takes reasonable technical and organizational measures to protect personal data against unauthorized or unlawful processing, accidental loss, destruction, or damage, and to ensure the accurate and up-to-date collection, storing, and use of personal data. The website operator may provide personal data to third parties in the event of a merger or acquisition of the website operator, or if required by law or to comply with legal obligations.

6. Website Accessibility

6.1. The website is accessible on the Internet via the domain address www.nexocode.com. The website operator ensures that the website is accessible to all users, including those with disabilities, through the use of accessible technologies and practices.
